

Datasheet JPS-3 B

Articlenumber: E6160044

Universal pressure switch with 2 switching ranges. With SW17 hexagonal connection piece with 1/4" internal thread.

The JSP is a universal pressure switch with 2 switching ranges, starter button and indicator lamp and is suitable for oil, water and air. It can also be used as a regulator for controlling and monitoring in domestic oil supply systems, for pressure boosting systems, oil feed pumps, etc.

Electric connection	Screw terminals
Electronic version	No
Function type (systems engineering)	Monitor
Housing material	Metal sheet steel
Internal setting	Yes
Max. switching current	2 (2) A
Max. switching voltage	230 VAC, 50 Hz
Medium temperature	?30 ... 80 °C
Operation	Internal setpoint adjuster, start button
Protection class	IP10
Sensor element	Pressure membrane
Switching contact	Two-way contact
With explosion protection	No
With LED display	Yes
